

Eye Surgeon Associates

Bettendorf, Iowa

River Place Technologies, LLC was asked to provide a commissioning review of the Eye Surgeon Associates facility. Eye Surgeons Associates offers a comprehensive range of medical, surgical, and optical eye care.

River Place Technologies, LLC reviewed the heating, ventilating and air conditioning systems for proper function and design compliance. This included the surgery room where precise eye procedures occur on a dally basis.

Original design parameters where identified that had been modified during construction and occupancy. The River Place Technologies, LLC report allowed the owner the opportunity to be aware of these changes and made proper adjustments in their operation.
